HOT PINK SWEATER

Lizbeth Mendoza

I entered the nail industry over eight years ago. I was drawn into the nail world after meeting nail master artist and educator, Dafne Fernandez, who I had the privilege to work alongside on a project.

Dafne helped fuel my passion for nail artistry and ever since I've been fascinated by nail art and design. I am drawn in by the art side, but am also very focused on the structure, shape and form of the nail too, and therefore I work on all aspects and elements of nail application, as I hope one day to become as skilled and learned as the nail masters that I look up to and admire today.

WHAT YOU NEED

Hot pink UV/LED gel polish, UV/LED matte top coat, acrylic powder, liner brush.

GETTING PREPARED

Set up your table with the materials you will be using for this design so you are working at an uncluttered desk.

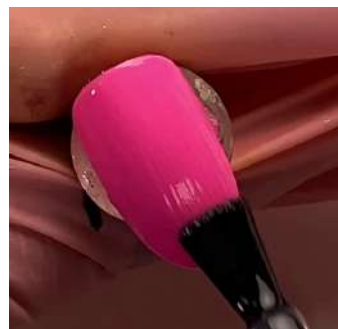

CREATE THE BASE

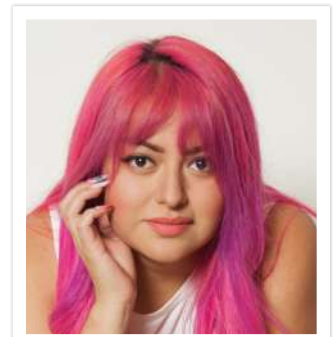

1 Polish the nail with hot pink UV/LED gel polish; cure.

2 Repeat for the second coat application.

3 Cover the nail with UV/LED matte top coat; cure.

ADD THE EMBOSSED SWEATER DESIGN

4 Use a liner brush dipped in hot pink UV/LED gel polish, to create the design for the sweater.

5 Use a fan brush dipped in clear acrylic to cover the design, tap off the excess powder; cure.

6 Dust away the excess powder with a fluffy brush.

7

Enjoy your sweater design.
