## BOHO-STYLE NAILS

## Sarah Petersen

Co-owner of Salon Legacy in Rolla, Missouri & international principal educator for Artistic Nail Design, Sarah Petersen has turned her passion for art & nailcare into a burgeoning business & has enjoyed many highs during her 14-year career.

Talented, ambitious, self-enthused & motivated are just a few words that describe Sarah. At 38-years old, she is a successful nail artist, salon owner & educator and, like many women, has become genius at juggling her family life, married with three children, with her professional persona & responsibilities.

Not content to own & run a salon while nurturing a young family, Sarah completed educator training in 2014 to become an international Artistic Nail Design educator. This role has opened up international travel opportunities where this illustrious educator has worked alongside some of the best nail artists in the world today. "I'm thrilled to be part of the Artistic educator team, as I find teaching very rewarding, & it's been a career-long passion of mine," Sarah enthuses. Constantly educating herself & enhancing her skills, Sarah has made it her mission to continue to grow and develop her skill set in order to expand in & with the nail industry.

**WHAT YOU NEED**  
UV/LED gel polish colors in blue, yellow, coral, maroon, UV/LED gold glitter, set of nail art brushes, dotting tool & UV/LED lamp.

**GETTING PREPARED**  
Prepare your table in an organized manner eliminating cross contamination from the products. Make sure all necessary products are within hand's reach, so the colors are ready to use on the nail desk.

**1** Prepare the nail tip by sizing & shaping, then apply a coat of UV/LED base coat gel & cure. Gel polish the entire nail in a navy blue color, cure under a UV/LED lamp.

**2** Using a dotting tool & nail art brush, add half a maroon flower & then outline a light blue flower pattern in UV/LED gel & cure.

**3** Using UV/LED yellow gel, outline the maroon flower & add a dot in the center of the flower, then cure under a UV/LED lamp.

**4** Add tiny coral dots with UV/LED gel around the center yellow dot, cure, then use UV/LED matte top coat & cure.

**5** Add a gold outer edging to the flower design, down the right hand side of the nail tip to complete the design. Apply UV/LED top coat & cure.

To create a set of unique nails, use this idea & change it up across each nail using the same color palette. Using dots & swirls & differing flower patterns, you will finish with a set of boho-60's inspired nails.
