BRUSHED CANDY GEL ART

WHAT YOU NEED

Nail file, clear tips, UV/LED base gel, UV/LED non-wipe top gel, UV/LED overlay gel colors in 2 shades of orange, 2 shades of red & an aquamarine, gel brush, liner brush, gel cleanser, UV/LED lamp

GETTING PREPARED

Prepare your table in an organized manner eliminating cross contamination from the products. Make sure all necessary products are within hand's reach, so the gel pots & colors are ready to use on the nail desk.

Lee Sohye is a master educator for KEYGEL Korean nail salon brand & founder of NewAr. Sohye has been in the salon business for more than five years and operates two salons in Busan, Korea. She's received numerous awards from nail competitions including the World Beauty Festival, Korea Beauty Festival, International Beauty Olympics & International Beauty Master Contest.

1 Prepare your tip by sizing & filing to shape.

2 Apply UV base gel & cure.

3 Apply 2 different shades of orange UV gel base color side by side, blend them using a long liner brush & cure.

4 Apply 2 different shades of red beside the orange & roughly blend the colors using a long liner brush & cure.

5 Mix an aquamarine color with UV/LED overlay gel with a ratio of 1:2. Leave a slight space & apply down the right hand side of the nail. Take a slightly lighter shade & roughly blend them with a long liner brush & cure.

6 Repeat steps 3-5.

7 Apply a thick amount of UV/LED overlay gel horizontally just above the center to give dimension & create a candy effect & cure.

In this step by step you have learned how to give body & dimension to your nail design using gel to build up the look. Using a series of harmonious colors in an ombré effect has given the design its candy-like style.
