BALLERINA SLIPPER ART

*Kim
Jieun*

Kim Jieun worked in the cosmetics industry for five years and in that time fell in love with nail art. She moved her career into the nail industry and has since developed hundreds of nail products including gel colors and nail art tools.

WHAT YOU NEED

Nail file, UV/LED Peel-off base gel, UV/LED non-wipe Glossy top gel, UV/LED Repair gel, UV/LED gel colors, gel brushes, liner brush, pearl stones, tweezers, a UV/LED lamp.

GETTING PREPARED

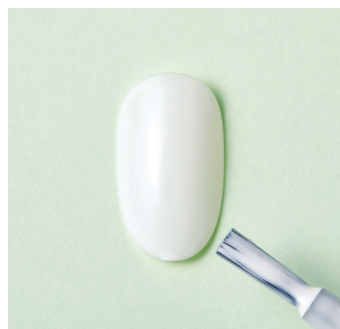

Prepare your table in an organized manner eliminating cross contamination from the products. Make sure all necessary products are within hand's reach, so the products are ready to use on the nail desk.

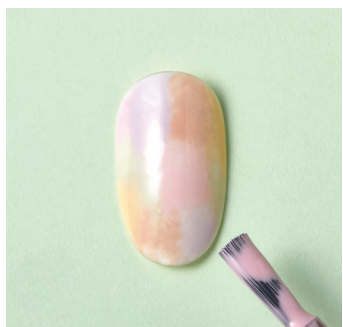

1 Prepare your tip by sizing & filing to shape.

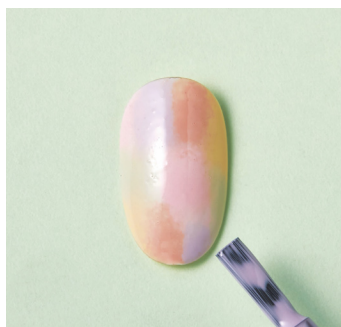

2 Apply UV/LED Peel-off base gel & cure.

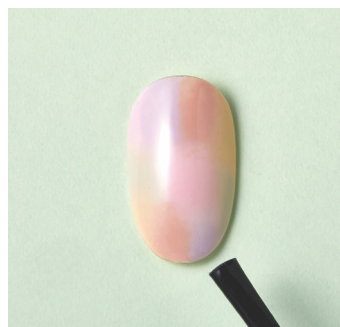

3 Apply UV/LED gel base color & cure.

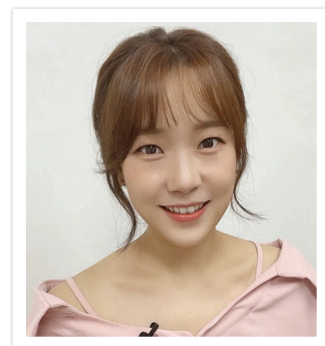

4 Apply your choice of pastel UV/LED colors & blend using a graduation brush & cure.

5 Repeat step 4.

6 Apply UV/LED Repair gel over the entire surface & cure.

BALLERINA SLIPPER ART BY KIM JIEUN

7 Apply white UV/LED gel color on the left & right sides of the nail tip.

8 Using a thin liner brush, draw large crosses down the center of the nail to mimic laces on a shoe.

9 Apply UV/LED Repair gel to the entire surface of the nail tip, then place small pearl stones at the end of each line & cure.

10 Apply a Non-wipe UV/LED Glossy top gel & cure.

In this workbook Kim Jieun has demonstrated very simple steps towards creating beautiful & elegant nail art in a very short space of time.
