WHAT YOU NEED
UV/LED Artistic gel polish, Rock Hard extension, Artistic Nail Surface Cleanser, acrylic brush, Revive Cuticle oil, Wax Paper, Oil Slick Foil.

GETTING PREPARED
Prepare your table in an organized manner eliminating cross contamination from the products. Make sure all necessary products are within hand's reach, so the colors are ready to use on the nail desk.

1 Follow application steps for Rock Hard Extension.

2 Apply a thin coat of Radiate My Love, making sure to cap the free edge. Cure for 30 seconds in LED light or 2-minutes in UV. Repeat.

3 Transfer 'Oil Slick' foil diagonally across the tip of the nail. Be sure to firmly press foil onto the nail to ensure adhesion.

4 Create a dark oil spill effect decal by applying Colour Gloss in Torque It! on wax paper & creating voids or holes. Allow the product to sit for a moment while the holes become bigger as the gel settles. Assist the design by using a marbling tool to direct the gel to where you want it to go. Once desired design is achieved, cure for 30-seconds in an LED light or 2-minutes under UV.

5 Use Sani Tongs to peel decal from wax paper & apply to the foiled area, trimming the edges to fit the nail.

6 Apply Glossing Gel over the entire nail & cure for 30-seconds in an LED lamp or 2-minutes under UV. Apply a second coat of Glossing Gel & cure for 30-seconds in LED or 2-minutes under UV.

7 Use Nail Surface Cleanser & a lint-free wipe to cleanse the inhibition layer of the nail.

8 Massage one drop of Revive Cuticle Oil into the skin surrounding the nail plate, and enjoy the finished look.

In this workbook you have learned how to create your own nail art effects using gel polish colors cured on wax paper in a variety of designs. Layering different media will also help build an original & unique design & when using nail art foil & cured gel polish shapes, nail art is a quick, simple & cost effective way to offer nail art ideas to your clients.
