

TAG THAT trend

HIDDEN ZEBRA

WHAT YOU NEED

180-grit file and buffer, magnetic gel polish color, black gel polish, black nail polish, stamping plate, silicone stamping tool, top coat.

GETTING PREPARED

Prepare your table in an organized manner eliminating cross contamination from the products. Make sure all necessary products are within hand's reach, so the colors are ready to use on the nail desk.

Zrinka
Vuksan

Croatian-born, nail artist, international educator and judge Zrinka Vuksan, runs a private nail studio and academy on Mainland Street in Yaletown, Vancouver, Canada.

Promising high-fashion nails created with a clean application and amazing structure, Zrinka B Vuksan is proud to have brought European nail standards to the shores of Canada.

This year, 2023, sees the launch of her eponymous nail brand, bringing nail skills, creativity, product and education all under one roof affording the aspiring nail technician easy access to professional-grade products during training and beyond.

Zrinka is also a model and high-fashion nail artist interested in collaborations and contracts in fashion, film, music and edits, as well as a session nail stylist delivering sublime nail architecture for fashion editorials, film, music videos, artists, models and celebrities.

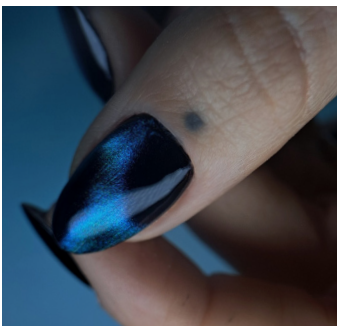

1 After prepping the nail & applying product, shape the nail with 180-grit file & buffer, then prepare the surface for color.

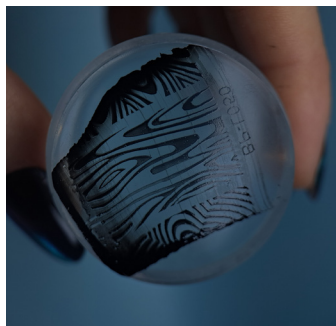

2 Apply black gel polish, carefully paying attention to the cuticle area. Cure gel polish for 60-seconds in an LED lamp.

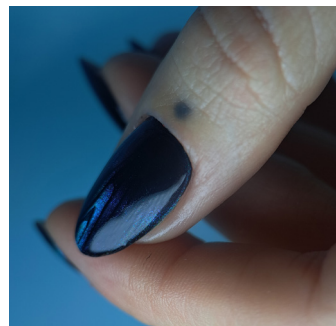

3 Choose a magnetic gel polish color & apply it over the black gel polish.

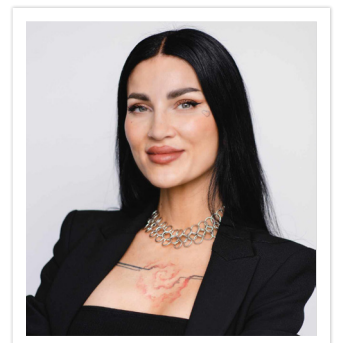

4 Using a magnetic stick, move the gel polish to create different lines, leaving parts of the nails empty, so the black polish is visible looking across the surface of the nail. Cure for 60-seconds in an LED lamp.

5 Using a stamping plate of your choice, apply black stamping gel or nail polish & stamp the design across the nail: cure for 60-seconds or let nail polish air-dry.

6 When the nail is dry, apply top coat. Use a shiny or matte finish and enjoy the hidden lines as they reveal themselves as they catch the light. Depending on the angle you view the nail, the lines will appear and disappear as the nails move.
